

**Name:** Roger Federer

---

**Occupation:** beginner programmer, who has his own telegram channel.

**Demographics:** 41 years old, lives in Basel (Switzerland).

**Motivations:** The desire to get additional information and experience in programming, find useful articles or videos, expand your circle of acquaintances, learn some useful tips, and find a good job in your profile.

**Goals:** Become a great programmer, write your own website, put your knowledge into practice, constantly educate yourself, learn 2-3 programming languages, and become a millionaire.

**Preferred Method of Communication:** Telegram, Viber, Phone, Email, Face-to-Face.

**Social Networks:** Telegram, WhatsApp, Facebook, Instagram.

**Personality:** I play tennis in my free time.

**Features to add:** As a beginner programmer, I want to add the ability to code on the 'fly' and immediately see the result of my work, that is, there were 2 screens, one to enter the code, and the other to see the result. Under these screens, I want the users of the site to be able to delete their comments.

**Reasons why these features need to be added:** For me, it would be nice to take feedback from the site according to the code I wrote, so I can progress straight ahead to go to my destination.

**Name:** Rafael Nadal

---

**Occupation:** tennis player.

**Demographics:** 36 years old, lives in Madrid (Spain).

**Motivations:** The desire to embody your passion for tennis in every moment of your life.

**Goals:** After retirement, become a tennis coach, passing on to the players all his vast experience in such a wonderful game as tennis.

**Preferred Method of Communication:** Phone, Email, Face-to-Face.

**Social Networks:** Telegram, Viber, Instagram, Twitter.

**Personality:** Every day I travel the world and play tennis, this is my job and hobby.

**Features to add:** As a tennis player, I want tennis mini-games to be added to the site, as well as small useful tennis videos to diversify the IT theme).

**Reasons why these features need to be added:** Because for all IT people, in order to work well, you need to take mini-breaks at work, and in your free time - to do sports. I think most professionals, after watching tennis videos, would like to repeat it in real life, which would only benefit them!
